INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Environmental Fund for Georgia, Inc. d/b/a EarthShare Georgia:

Report on the Financial Statements

We have audited the accompanying financial statements of Environmental Fund for Georgia, Inc. d/b/a EarthShare Georgia (a nonprofit organization), which comprise the statements of financial position as of June 30, 2019 and 2018, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Environmental Fund for Georgia, Inc. d/b/a EarthShare Georgia as of June 30, 2019 and 2018 and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

1. Nature of Organization and Significant Accounting Policies

The Environmental Fund for Georgia, Inc. d/b/a EarthShare Georgia (the Organization) is a not-for-profit organization exempt from income tax under section 501(c)(3) of the U.S. Internal Revenue Code. On June 6, 2001, the Organization began doing business as EarthShare Georgia.

As Georgia's only environmental fund, EarthShare Georgia is a one-stop connector nonprofit that provides public and private sector organizations with solutions to engage employees in environmental educational learning, volunteer and workplace-giving opportunities that support more than 100 local, state and national charities dedicated to conserving and protecting our air, land and water. Donated corporate and individual funds are used to support the operations and programs of EarthShare Georgia and its' member groups which consist of not-for-profit environmental member organizations.

Method of Reporting and Financial Statement Presentation

The accounts are maintained on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared on the accrual basis of accounting. The Organization reports information regarding its financial position and activities according to two classes of net assets as follows:

Net Assets Without Donor Restrictions – Net assets that are not subject to donor-imposed restrictions. Items that affect (i.e., increase or decrease) this net asset category include unrestricted contributions, investment income, and fundraising event income and related expenses associated with the Organization's core activities. At times, the governing board may earmark otherwise unrestricted net assets for a specified purpose. Since this is not a donor-imposed restriction, the designated asset is classified and reported a part of net assets without donor restrictions.

Net Assets With Donor Restrictions – Net assets subject to donor, or certain grantor, imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires; that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

In addition, under professional standards, contributions received are recorded as net assets without donor restrictions and net assets with donor restrictions, depending on the existence and/or nature of any donor restrictions. As of June 30, 2019, and 2018, EarthShare Georgia had \$5,079 and \$3,867, respectively in net assets with donor restrictions.

1. Nature of Organization and Significant Accounting Policies - Continued

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Functional Allocation of Expenses

The costs of providing the various programs and other activities are summarized on a functional basis in the Statements of Activities. The Statements of Functional Expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the various program and supporting services benefited. The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include utilities, and depreciation, which are allocated on a square footage basis, as well as salaries and wages, benefits, insurance, maintenance and other which are allocated on the basis of estimates of time and effort.

Cash and Cash Equivalents

The Organization considers all cash investments and highly liquid investments with maturities of three months or less to be cash equivalents. Cash and cash equivalents consist primarily of demand deposits with a single financial institution. The balances in the Organization's bank accounts, as reflected in the bank's records, are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 as of June 30, 2019 and 2018. There were no uninsured bank balances in excess of the FDIC limit at June 30, 2019 and 2018.

The balances in the Organization's investment accounts, as reflected in the financial institution's records, are insured by the Securities Investors Protection Corporation up to \$500,000 in securities protection that includes protection for up to \$100,000 in non-invested cash. There were no uninsured investment funds as of June 30, 2019 and 2018. Management believes that cash and investments are maintained at financial institutions with high credit ratings that would, accordingly, carry a low risk of potential loss.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are reported at fair value based on quoted market prices with all gains and losses reported in the statements of activities.

1. Nature of Organization and Significant Accounting Policies - Continued

Equipment and Furniture

Equipment and furniture are stated at cost or estimated fair value at time of donation. Depreciation is computed by the straight-line method over the estimated useful lives. The Organization follows the practice of capitalizing all expenditures for equipment and furniture in excess of \$800. The fair value of donated fixed assets is similarly capitalized.

At June 30, 2019 and 2018, the estimated useful lives of equipment and furniture were as follows:

Equipment and furniture

3 - 5 years

Donations of equipment and furniture are recorded as support at their estimated fair value. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire equipment and furniture are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies donor restricted net assets to net assets without donor restrictions.

Donated Services

Contributions of donated noncash assets are recorded at their fair market values in the period received. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair market values in the period received.

Tax Exempt Status

EarthShare Georgia is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code, as amended, and classified by the Internal Revenue Service as other than a private foundation. The Organization believes that it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are material to the financial statements. The Organization's income tax returns are subject to examination by the appropriate regulatory authorities for all open years, which include the last three years filed.

1. Nature of Organization and Significant Accounting Policies - Continued

New Accounting Policies

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers. Subsequent to issuance of ASU 2014-09, FASB issued additional related ASU's to provide additional clarification of ASU 2014-09. ASU 2014-09 amends the FASB Codification (ASC) by creating Topic 606, Revenue from Contracts with Customers, and Subtopic 340-40, Other Assets and Deferred Costs – Contracts with Customers. The new revenue recognition standard eliminates the transaction and industry specific revenue recognition guidance under current GAAP and replaces it with a principle-based approach for determining revenue recognition. The core principle of Topic 606 is that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This pronouncement requires retrospective application.

In June 2018, FASB issued ASU 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made. This new standard clarifies and improves the scope and the accounting guidance for contributions received and contributions made. The guidance in this update should be applied on a modified prospective basis. Retrospective application is permitted.

In November 2016, FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230)*, *Restricted Cash*, which requires the statement of cash flows to explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. The guidance requires retrospective application.

The Organization adopted these accounting policies for the year ended December 31, 2019. These new accounting policies did not affect total net assets for either the year ended December 31, 2019 or 2018.

2. Liquidity and Availability of Financial Assets

The Organization is substantially supported by contributions without donor restrictions. However, the Organization sometimes receives contributions with donor restrictions for various programs. Because a donor's restrictions require funds to be used in a particular manner or in a future period, the Organization maintains those funds with donor restrictions so that they are available to meet those responsibilities as they are required to be met. The Organization considers contributions restricted for programs which are ongoing, major, and central to its annual operations to be available to meet cash needs for general expenditures. General expenditures may be incurred for program or administrative purposes.

2. Liquidity and Availability of Financial Assets - Continued

The Organization's financial assets at June 30: (reduced by amounts that are not available for general use in the next 12 months) available within one year after this date to satisfy liabilities at this date and for future general expenditure are as follows:

	2019	2018
Cash and cash equivalents	\$ 83,259 \$	4,671
Campaign revenue receivable	-	253,469
Accounts receivable - other	4,561	4,014
Investments	134,804	125,775
Total financial assets available	222,624	387,929
Less:		
Campaign revenue payable	(136,538)	(253,469)
Financial assets available to meet cash needs for general expenditures within one year	\$ 86,086 \$	134,460

The Organization structures its financial assets to be available as its general expenditure, liabilities, and other obligations come due. In addition to financial assets available to meet general expenditures over the next twelve months, the Organization utilizes an operating budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources. Refer to the statement of cash flows which identifies the sources and uses of the Organization's operating cash and shows positive cash generated by operations for fiscal year 2019.

3. Campaign Receivables, Net

For the year ended June 30, 2018, the Organization had campaign receivables due as a result of workplace giving from multi-state employers in the amount of \$253,469. Management established an allowance for doubtful accounts which represented approximately nine percent (9%) of uncollectible accounts at ended June 30, 2018. During fiscal 2019, the Organization changed its policy internally for recording campaign revenue and receivables which resulted in no campaign revenue receivable balances at June 30, 2019.

Campaign Revenue Receivables are summarized as follows:

	 2018
Campaign Receivables received in:	 _
Less than one year	\$ 185,530
Two or three years	93,007
Allowance for uncollectible accounts	 (25,068)
Total Campaign Receivables to give, net	\$ 253,469

4. Investments

The Organization classifies its investment assets using a hierarchy of inputs to fair value measurements in accordance with professional standards, as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities that the Organization has the ability to access.
- Level 2 Inputs to the valuation methodology that are derived principally from or corroborated by observable market data:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the assets or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs that are unobservable and significant to the overall fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Organization's direct investments consist of mutual funds which are Level 1 investments. The Organization does not have any Level 2 or Level 3 investments.

Total net investment income for years ended June 30, 2019 and 2018 was \$9,028 and \$5,209 respectively, is reported in the accompanying statements of activities. The fair value of the mutual funds included in the accompanying statements of financial position for years ended June 30, 2019 and 2018 was \$134,804 and \$125,775, respectively.

5. Concentration of Credit Risk

The Organization's contributions are predominately received from Georgia corporation employees. As such, the Organization's ability to generate resources via employee giving is dependent upon the economic health of that area. An economic downturn could cause a decrease in employee giving that coincides with an increase in demand for the Organization's services.

The Organization's investments are subject to various risks, such as interest rate, credit and overall market volatility risks. Further, because of the significance of the investments to the Organization's financial position and the level of risk inherent in most investments, it is reasonably possible that changes in the values of those investments could occur in the near term and such changes could materially affect the amounts reported in the financial statements. Management is of the opinion that the diversification of its invested assets should mitigate the impact of any such changes.

6. Campaign Revenues

Campaign revenues recognized for the year ended June 30 as follows:

	_	2019	 2018
Contributions	\$	329,174	\$ 282,168

Leaders in Sustainability Speaker Series	10,000	10,000
Releases from restrictions:		
To develop a Leaders in		
Sustainability Speaker Series	 (7,058)	(6,133)
Total net assets with donor restrictions	\$ 5,079 \$	3,867

9. Subsequent Events

Subsequent to June 30, 2019 the global coronavirus pandemic threatened to deeply harm global growth. This has affected the U.S. and global equity markets, as well as consumer confidence, and the broad U.S. and global stocks market have fallen significant volatility June 30, 2019. It is uncertain how this downturn in the financial markets and consumer confidence may affect the operations, investments, funding and contribution income of nonprofit organizations in the near future. The Organization depends heavily on contributions to support its operations. The ability of contributors to continue giving may be dependent on current and future overall economic conditions. While the Organization believes it has the resources to continue its programs, its ability to do so, and the extent to which it continues, may be dependent on many interdependent factors.

Subsequent events have been evaluated through March 25, 2020, which is the date the financial statements were available to be issued.
